

CSE314: Computer Networks Lab

Session 4: **Introduction of Routing Protocols and Configure RIP protocol**

Deadline: 22/02/2022 12:00PM

Task1: Design and configure the following network using the Routing Information Protocol.

Instructions:

1. Design the network as per requirements.
2. Take the snapshot of each step and make a report as PDF file.
3. Rename your file using your ID.
